COMPANY UPDATE

Rating: BUY

Ticker: NBY

Price: \$0.68

Target: \$9.50
(from \$10)

Mixed Q2 report: NovaBay recently (on August 10) reported its Q2 (ending June) 2023 results. Revenue was \$4.6 million (+26% y-o-y), compared with our and consensus estimates of \$3.7 million. Net loss was \$4.0 million or EPS of \$(1.27) compared with our estimates of \$(0.49) and consensus of \$(0.56). There was no company guidance.

Avenova products sales: Avenova product sales were \$2.2 million. The company also had \$1.3 million of NeutroPhase and PhaseOne wound care product sales.

DERMAdoctor contribution: DERMAdoctor sales were \$1.1 million.

No guidance: The company did not provide 2023 guidance.

Adjusting 2023 estimates: We are adjusting our 2023 estimates for revenue to \$16 million, from \$15 million, and for EPS to \$(2.50) from \$(1.69).

DERMAdoctor: In September 2021, NovaBay announced the acquisition of privately held DERMAdoctor for ~\$12 million (in cash). DERMAdoctor produces and sells more than 30 products under lines that include Ain't Misbehavin', Calm Cool + Corrected, Kakadu C, KP Duty, and Wrinkle Revenge. Its products are designed to address acne, aging skin, dark spots, dry skin, eczema, and many other skin conditions. DERMAdoctor sells its products through major retailers such as Macy's, QVC, Costco, digital beauty retailers such as SkinStore and Amazon, as well as its own website. DERMAdoctor also has a large and growing network of international distributors and retailers. DERMAdoctor's management has joined the NovaBay management team.

DERMAdoctor new focus: The company is now shifting its strategy in its skincare segment away from new product development to focus more on driving sales of top-selling products through its most efficient sales channels. As part of this, Dr. Jeff Kunin and Dr. Audrey Kunin (founders of DERMAdoctor) will retire in November 2023.

Management long term positive: NovaBay is making good progress to market its Avenova product to the 41 million Americans (\$600 million market opportunity) who suffer from blepharitis and related eye symptoms. In addition, the acquisition of DERMAdoctor allows strong growth and synergy opportunities in the global market for cosmetic skincare products. NovaBay plans to launch a broad range of complementary eye and skin care products. The company also plans to leverage operational synergies and sales/distribution relationships.

We remain positive: Despite stock and financial results volatility, we believe that NovaBay is a compelling investment story. The company's focus in 2023 is to drive Avenova and DERMAdoctor sales to consumers by focusing on current products as well as new product launches.

Balance sheet: In Q2, the company has \$4 million in cash and \$1 million in debt. In Q2, the company raised \$3 million in convertible debt. We believe the company has enough cash into 2024.

Risk/reward positive: Maintaining our BUY rating, but lowering our 12-month price target to \$9.50 from \$10, which is based on an NPV analysis. Although there are many variables in our valuation (many with high variabilities and risks), we believe this appropriately balances out the company's high risks with its high growth prospects and large upside opportunities.
