

Be a part of the expanding tech scene and help make a difference.

We are offering a select individual the rare opportunity to become a part of the exciting tech startup scene at our headquarters in Chicago. On a part-time or full-time basis, you can contribute to the growth and development of an established Mobile App that primarily focuses on emergency communication.

With over 3 million subscribers already and exponential growth nationally and internationally, our company can offer significant employment opportunities for highly motivated individuals looking to develop professionally. In this flexible role, college level applicants will have the ability to further develop their skill set outlined below, while also gaining valuable entrepreneurial experiences that can help shape future employment opportunities and career path decisions.

The graphic design intern will assist in shaping the visual graphics required for various digital and/or print marketing assets and images.

Your graphics should capture the attention of those who see them and communicate the right message. For this, you need to have a creative flair and a strong ability to translate ideas into design. If you believe you are a competitive candidate who possesses a majority of the skills outlined below, please submit your resume and graphic design portfolio.

Responsibilities:

- Collaborate with In-telligent's Graphic Designer, Marketing Manager, and/or CEO to understand the scope of a project
- Create images and marketing assets that convey a message
- Develop graphics for websites, social media, client outreach, Google Play, the Apple App Store, etc.
- Select colors, images, text style, and layout
- Present designs to In-telligent employees for approval, and incorporate any changes into a final design
- Review designs for errors before finalizing them for distribution

Requirements:

- Suitable for students majoring in Graphic Design or Social Media Marketing
- Proficient in graphic design and simple video creation (such as for social media ads, tutorials, client materials etc.)

- A strong portfolio of graphics and similar media
- Ability to work with Adobe Suite (Photoshop, Illustrator, Indesign) and Microsoft Office (Word and Powerpoint)
- Strong problem solving, trouble-shooting and analytical skills
- Advanced written and verbal communication skills
- A keen eye for aesthetics and details
- Attitude and entrepreneurial drive of someone that wants to learn and grow as an employee
- Assist with defining standards and development processes
- Comfortable working independently as well as with a team
- Strong focus on quality and timeliness of work
- Exceptional time and workload management skills
- Comfortable working as part of a team and in small collaborative groups
- Video editing/software skills are a plus
- Travel expenses paid (This is an unpaid internship)
