

COMPANY UPDATE

Rating: BUY

Ticker: LUCD

Price: \$0.81

Target: \$8.00 (from \$8.50)

Lucid Diagnostics Inc.

Q4 about inline. Expected high growth in 2024 should drive stock much higher. Exact Sciences entry into market validates huge value for Lucid. Lowering P/T to \$8.00.

Q4 about inline: Lucid recently (on March 25) reported its Q4 2023 (ending December) results. Revenue was \$1.0 million, compared with our estimates of \$0.9 and consensus of \$1.1 million. Pro forma net loss was \$9.8 million or EPS of \$(0.23), compared with our estimates of \$(0.20) and consensus of \$(0.25). Lucid is still early in its commercialization so it generates relatively low revenue currently, but revenue is expected to grow significantly in 2024.

EsoGuard growth: The company processed 2,201 tests in Q4, down from 2,575 tests in Q3, 2,202 tests in Q2, 1,841 tests in Q1, 1,174 tests in Q4 2022. Because it is still early in the billing/collection process, the company has deferred revenue recognition until cash is collected so revenue is not recorded when the tests are performed (for now). We estimate that there are ~\$20 million in potential test revenue backlog from those performed, but not yet collected.

Operating expenses: Operating expenses were \$11 million, up from \$10 million in O3 2023.

No guidance: Management has not provided forward guidance.

Adjusting 2024 estimates: We are adjusting our 2024 estimates for revenues to \$4.6 million, from \$9.4 million, and for EPS to \$(0.69) from \$(0.61).

EsoGuard: EsoGuard is a molecular diagnostic esophageal DNA test shown in a published human study to be highly accurate at detecting Barrett's Esophagus (BE), as well as EAC. The estimated addressable domestic market opportunity for EsoGuard is ~\$2 billion based on tens of millions of U.S. patients with gastroesophageal reflux disease (GERD), more commonly called acid reflux or chronic heartburn, who are BE screening candidates.

EsoCheck: EsoCheck is a non-invasive cell collection device designed to sample cells from a targeted region of the esophagus in a five-minute office-based procedure, without the need for endoscopy. EsoCheck is meant to be used for testing with its EsoGuard tests. Two of the leading gastroenterology (GI) specialty associations now support Lucid's EsoCheck Cell Collection Device and EsoGuard Esophageal DNA Test as an acceptable alternative to endoscopy.

Ramp in commercialization can be catalyst: Lucid plans to advance commercialization of its 2 main products (EsoGuard and EsoCheck) as well as gain additional regulatory approvals (expand usage and insurance and government coverage in the U.S. and to expand into international markets). We believe achieving key milestones and ramp in revenues will likely be catalysts for the stock.

Large market potential: Cancer is the 2nd leading cause of death in the U.S. (behind heart disease) with ~600,000 deaths a year. The incidence of EAC, the most common cancer of the esophagus, has quadrupled over the past 30 years.

Exact's validation: Exact Sciences, a leading provider of cancer screening and diagnostic tests, recently announced that it is working on a competing non-endoscopic Oncoguard Esophagus test (in early product development) similar to EsoGuard. Exact's entry into this market validates the huge market opportunity for EsoGuard. We believe that EsoGuard's huge first mover advantage and better test makes Lucid a very attractive potential acquisition candidate.

Balance sheet: In Q4, Lucid has \$19 million in cash and \$14 million in debt. In the just completed Q1, Lucid raised \$18 million in preferred stock. We believe it has enough cash into late-2024.

Positive risks versus rewards: Lucid's devices still have long commercialization challenges ahead, but we believe the ~billion dollars market potential presents high rewards for the risks.

Current valuation attractive: We are maintaining our BUY rating, but lowering our 12-month price target to \$8.00 from \$8.50 based on a NPV analysis. This represents significant upside from the current share price and we believe this valuation appropriately balances out the company's high risks with large upside opportunities.

Company Description

Based in New York, NY, Lucid Diagnostics is a commercial-stage medical diagnostics company focused on patients at risk of developing esophageal cancer.

Commercial-Stage Cancer Prevention Medical Diagnostics Company

- Founded May 2018 to license technologies underlying EsoGuard & EsoCheck from Case Western Reserve University
- ~\$25B total addressable market opportunity
- PAVmed paid ~\$50K cash, retained 82% equity
- Managed and financed by PAVmed
- ~\$30M invested over ~3.5 years

- Advanced EsoGuard & EsoCheck to commercialization
- Secured \$1,938 Medicare payment
- Nasdaq IPO October 14, 2021
- Raised \$70M in growth capital at \$467M IPO valuation
- PAVmed Stake pre-IPO 72.7%, post-IPO 75.5%

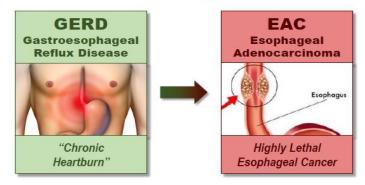

Exhibit 4: Lucid Diagnostics

Commercial-Stage Diagnostic Technology Company Focused on Early Precancer Detection

MISSION: Prevent EAC Deaths in At-Risk GERD Patients

Lead Lucid Products

First and only commercially available test capable of serving as a widespread screening tool to prevent EAC deaths through early detection of esophageal precancer

Both major gastroenterology societies now support EsoCheck as an acceptable alternative to endoscopy for early detection of esophageal precancer to prevent EAC deaths

Highlights

Exhibit 5: EsoCheck and EsoGuard Market Opportunity

EAC Precancer Screening to Prevent EAC

Major unmet clinical need

Necessary to prevent EAC deaths through early precancer detection

~13 million high-risk GERD patients already recommended for precancer screening by professional society guidelines

Tragic Missed Opportunity To Detect and **EAC Is Highly Lethal Treat Precancer Before EAC** Less Over Of EAC patients have precancer Estimated 2020 US EAC deaths than diagnosed before EAC 16,000 10% Less Proportion of EAC patients who Of GERD patients recommended Over will die within five years of than for precancer screening undergo 80% diagnosis upper GI endoscopy screening 10%

Increasing screening rate from <10% to 25% will prevent thousands of EAC deaths per year

EsoGuard Commercial Opportunity

Exhibit 6: The EsoCheck Procedure

The EsoCheck Esophageal Cell Sampling Procedure

Less than 5-minute, non-invasive office-based alternative to endoscopy

Anatomically targeted cell sampling from lower 5 cm of esophagus where BE-EAC occurs

Protects sampled cells from dilution and contamination during device removal which is critical to accurately detect low-level precancer signal

EsoCheck Procedure Steps

Lucid Test Centers

A new test for early detection of precursors of esophageal cancer

while reflux is common, your patients may not know that chronic GERD can lead to BE and EAC. The EsoQuard esophageal DNA test detects the cellular changes caused by reflux.

How it works: distal esophageal cells are sampled using a simple, non-endoscopic five-minute office-based procedure, shipped in the provided preservative and mailer, and analyzed at our lab. Binary results (positive or negative) are available within a few weeks.

Who should be considered for testing?

recommends screening in high-risk GERD patients:

Individuals >50 years old with chronic GERD (>5 years) and/or frequent (weekly or more) GERD symptoms

- plus two additional risk factor
- Male
- Past or Present History of Smokin

Patients may be referred to Lucid Test Centers:

9700 N 91st St, suite A-115 Scottsdale AZ 85258

4494 W Peoria Ave Ste 115A Glendale, AZ 85302

Exhibit 9: #CheckYourFoodTube Precancer Detection Event (as of Q1 2023)

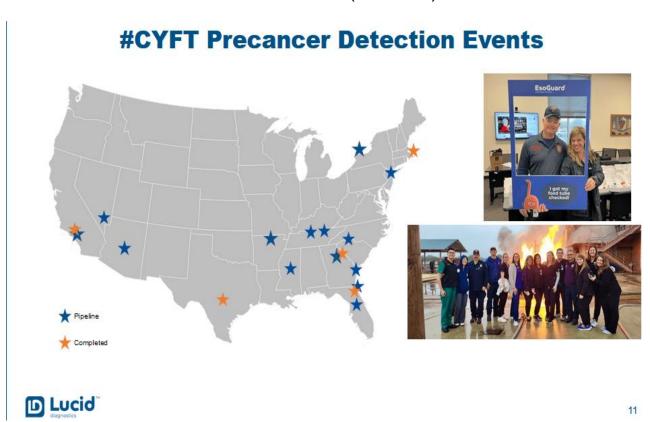

Exhibit 10: Q4 2023 and Recent Business Highlights (as of March 25, 2024)

Highlights from the fourth quarter and recent weeks include:

- 4Q23 EsoGuard revenue was \$1.04M, which represents a 33 percent increase sequentially from 3Q23 and an 829
 percent annual increase from 4Q22.
- Lucid's CLIA-certified clinical laboratory performed 2,201 commercial EsoGuard[®] Esophageal DNA Tests in 4Q23.
- High-volume #CYFT health fair testing events continue to gain traction with a robust roster of events scheduled through luly.
- Lucid initiated EsoGuard testing at over a dozen strategic accounts at health systems and academic medical centers with several dozen more engagements in process.
- Since upgrading to a new revenue cycle management provider in mid-June, Lucid has submitted claims to commercial
 and governmental payors representing approximately \$20 million in pro forma revenue. The vast majority of these
 claims have been adjudicated with nearly half resulting in an allowable amount of approximately \$1,800 per test, on
 average.
- EsoGuard's clinical validity and clinical utility data evidence base has expanded significantly in the fourth quarter and
 recent months. Lucid now has publicly-released data from three clinical validity studies demonstrating excellent
 EsoGuard sensitivity and negative predictive value, including unprecedented performance of a molecular diagnostic test
 in detecting precancer. In addition, three published clinical utility studies have documented near-perfect concordance
 between EsoGuard results and physician referral for upper gastrointestinal endoscopy. These data provide a strong
 foundation of critical evidence needed to support broad EsoGuard medical policy coverage. Lucid expects to leverage
 this data in its upcoming re-engagement with the MoIDX program to secure Medicare coverage under the final and
 effective foundational Local Coverage Determination.
- Held several meetings in recent months with medical directors of major commercial payors to discuss clinical validity and
 utility data and formally request positive medical policy determinations for EsoGuard. The Company also participated in a
 Blue Cross Blue Shield Association of America webinar with dozens of medical directors in attendance, during which
 Nicholas Shaheen, M.D., M.P.H., a leading esophageal precancer expert and lead author of the American College of
 Gastroenterology's guidelines, advocated for coverage of non-endoscopic biomarker testing consistent with the ACG
 guidelines. Lucid also expects recent expansion of legislation requiring coverage of certain biomarker tests, now
 effective in fourteen states, will help drive medical policy coverage.
- Established that EsoGuard testing can be offered as a covered benefit within health and wellness programs as a means

to drive contractually-guaranteed revenues. Lucid has built a robust pipeline of direct contracting counterparties, including benefits brokers, third-party administrators, and self-insured entities. The Company expects to drive direct contract testing events with meaningful revenues in the coming quarters. The Company is adding resources to the direct contracting team to accelerate this initiative

Lucid Accomplishments and Near-Term Goals

CLINICAL EVIDENCE

| Clinical Validity | 4 published or preprint manuscripts unprecedent precancer detection results |
|--------------------------|--|
| Clinical Utility | 3 published studies with near-perfect concordance |
| | REIMBURSEMENT |
| Revenue Cycle Management | Claims processing optimized with stable out-of-network pricing near \$1938 CMS price and improving payment rates |
| Market Access Team | Strengthened team with new VP, Market Access and VP, Employer Markets |
| Medical Policy Coverage | Active engagements with payors secure commercial and CMS coverage, MoIDx foundational LCD final and effective |
| Direct Contracting | Launched major initiative to offer EsoGuard as a covered health and well benefit |

 Ascendiant Capital Markets, LLC has not received compensation for advisory or investment banking services from the company in the past 12 months.

IMPORTANT DISCLOSURES

This report has been distributed by Ascendiant Capital Markets, LLC and is for the sole use of our clients. This report is based on current public information that we consider reliable, but we do not represent it is accurate or complete, and it should not be relied on as such. This report contains information from various sources, including United States government publications, The Wall Street Journal and other periodicals, Yahoo! Finance and other sources, and is for informational purposes only and is not a recommendation to trade in the securities of the companies mentioned within the report. We seek to update our research and recommendations as appropriate, but the large majority of reports are published at irregular intervals as we consider appropriate and, in some cases, as constrained by industry regulations.

We may have a business relationship with companies covered in this report. Ascendiant Capital Markets, LLC may make a market in the securities of the subject company. We and our affiliates, officers, directors, and employees will from time to time have long or short positions in, act as principal in, and buy or sell, the securities or derivatives (including options and warrants) thereof of covered companies referred to in this report. This report is not an offer to sell or the solicitation of an offer to buy any security in any jurisdiction where such an offer or solicitation would be illegal. It does not constitute a personal recommendation or take into account the particular investment objectives, financial situations, or needs of individual clients. Clients should consider whether any

information in this report is suitable for their particular circumstances and, if appropriate, seek professional advice, including tax advice. The price and value of the investments referred to in this report may fluctuate.

Following are some general risks that can adversely impact future operational and financial performance and share price valuation: (1) industry fundamentals with respect to legislation, mandates, incentives, customer demand, or product pricing; (2) issues relating to competing companies or products; (3) unforeseen developments with respect to management, financial condition or accounting policies or practices; or (4) external factors that affect the interest rates, currency, the economy or major segments of the economy. Past performance is not a guide to future performance, future returns are not guaranteed, and loss of original capital may occur. Certain transactions, including those involving futures, options, and other derivatives, give rise to substantial risk and are not suitable for all investors. Our report is disseminated primarily electronically, and, in some cases, in printed form. The information contained in this report is not incorporated into the contents of our website and should be read independently thereof. Copyright Ascendiant Capital Markets, LLC. No part of this material may be copied, photocopied or duplicated by any means or redistributed without the prior written consent of Ascendiant Capital Markets, LLC.

Risks & Considerations

Risks to attainment of our share price target include balance sheet/liquidity risks, failure of product/device candidates to demonstrate safety and efficacy in clinical trials, failure to gain regulatory approvals, ability to commercialize products, failure to obtain suitable reimbursement, competition, changing macroeconomic factors, investor sentiment for investing in biotech/medtech stocks, and changes in consumer or government priorities for healthcare.

Ascendiant Capital Markets, LLC Rating System

BUY: We expect the stock to provide a total return of 15% or more within a 12-month period.

HOLD: We expect the stock to provide a total return of negative 15% to positive 15% within a 12-month period.

SELL: We expect the stock to have a negative total return of more than 15% within a 12-month period.

Total return is defined as price appreciation plus dividend yield.

Ascendiant Capital Markets, LLC Distribution of Investment Ratings (as of January 15, 2024)

Investment Banking Services
